Kwanho Kim

📍 *Leuven, Belgium* ✉️ *kwanho.kim@pickit3d.com* 📞 *+32 0472 01 00 79* 🌐 *kwanhokim.vercel.app*

Summary

Software engineer with hands-on experience in robotics, computer vision, and automotive systems.
Worked on real-world applications ranging from V2X-based vehicle systems to industrial robotic picking.
Interested in building reliable systems that connect perception, interaction, and deployment.

Educations

Korea National Open University — **Seoul, South Korea**

- B.Sc. in Mechatronics — Feb 2026 ~ ongoing
- B.Sc. in Artificial Intelligence, GPA: 3.44/4.5 (approx. German grade: 1.7) — Mar 2024 ~ Feb 2025

Korean Academic Credit Bank System — **Seoul, South Korea**

- B.Sc. in Computer Engineering, GPA: 4.24/4.5 (approx. German grade: 1.2) — Apr 2019 ~ Aug 2020
- B.Sc. in Business Administration, GPA: 3.77/4.5 (approx. German grade: 1.6) — Apr 2019 ~ Aug 2022

Ecóle 42 — **Seoul, South Korea → Wolfsburg, Germany**

- Graduate Common Core in 42 Seoul — Sep 2020 ~ Aug 2022
- Advanced Core in 42 Wolfsburg (Transferred) — Jul 2023 ~ Aug 2025

SEA:ME — **Wolfsburg, Germany**

- Master's level automotive software engineering program: Software Engineering Automotive & Mobility Ecosystem — Jul 2023 ~ Jun 2024

Work Experiences

Pickit 3D — **Leuven, Belgium**

Research & Software Engineer — Aug 2025 ~ ongoing

- Worked on 3D vision-based robotic picking systems for industrial applications
- Integrated vision software with robotic platforms and supported real-world deployments
- Investigated failure cases and improved system robustness through testing and debugging
- Contributed to automation workflows and system-level integration

Rober Bosch GmbH — **Hildesheim, Germany**

Internship, V2X Communication — Jun 2024 ~ Nov 2024

- Developed a V2X-based vehicle demonstrator for safety-critical scenarios
- Integrated communication modules and designed data interfaces
- Built a React-based HMI for eBike safety applications
- Performed data analysis and troubleshooting in automotive systems

EduNityLab — **Seoul, South Korea**

Freelance QA Engineer — May 2023 ~ Jun 2023

- Conducted system QA and identified improvement areas for an education platform
- Compared competing systems to support product decisions

Skills

- **Programming Languages:** C, C++, Python, TypeScript, Assembly
- **Frameworks & Libraries:** React.JS
- **Tools & Framworks:** ROS 1/2, Docker, Git, GitHub, Figma, Carla Simulator
- **Domains:** Robotics, Computer Vision, V2X Communication, HMI, Embedded Systems, Web Programming
- **Language:** Korean(Native), English(C1/Advanced), German(A1/Beginner)
- **Soft Skills**: Leadership, Problem-Solving, Strong Willingness to Learn

Projects & Leadership

ColorSaveLife **Berlin, Germany**
BCX24 Hackathon (Winner) Feb 2024

- Led a team to win a Europe's largest automotive hackathon by Bosch
- Integrated eye-tracking features using the Gazebo Simulator, with Python client with plugin-based architecture

Autonomous Lane-Keeping-Assist **Wolfsburg, Germany**
SEA:ME (Software Engineering Automotive & Mobility Ecosystems) Aug 2023 ~ Dec 2023

- Implemented CNN-based lane detection on the Carla Simulator
- Designed a specialized CarlaClient class for efficient data management

Rush03 - Rock Band Club, Keyboardist & Leader **Seoul, South Korea**
Ecóle 42 - Seoul, Student Club Apr 2022 ~ Jul 2023

- Led a 50-member, 3-genre rock band community and organized 3 concerts (200–300 attendees)
- Served as a keyboardist for 8 months and concurrently led the group for 6 months.
- Integrated multifaceted initiatives such as beverage sales and a developer conference to enrich the event experience.

Certificates

IELTS Academic *7.5 (C1)* Mar 2025

TOEIC Speaking *160 (B2)* Dec 2022

TOEIC *860 (B2)* Dec 2021

Engineer Information Processing Nov 2020

- Human Resources Development Service of Korea (HRD Korea)
- South Korea's IT national certification in system development, information processing, and project management

Computer Specialist in Spreadsheet & Database (Level I) Dec 2019

- Korea Chamber of Commerce and Industry (KCCI)
- South Korea's National certification for advanced productivity software and data management skills

Network Advisor (Level 2) Oct 2019

- International Civil Qualification Association (ICQA)
- South Korea's National certification for network administration
